

## June 2005 - Early Action Compact Progress Report Jasper County

1. In an effort to keep our contact information updated; please provide the following information for your county:

	Name	Telephone	E-mail Address
Administrator/Manager	Andrew Fulghum	843-726-7700	afulghum@jaspercountysc.gov
EAC contact	H.E. (Hal) Jones	843-726-7708	hjones@jaspercountysc.gov

2. Please complete the attached Ozone Awareness Week checklist so that we will know which activities you did to promote awareness. Completed. Attached.

3. List any progress (if applicable) since your December 2004 submittal? (stakeholder meetings, events held; special projects, fleet Changes, Energy Star products purchased, Tree City USA, TABFTE, etc.)

Recently passed budget allows for retirement of inefficient vehicles; newer and more fuel conserving vehicles are under consideration.

4. Do you have any plans to implement additional strategies and/or education and outreach activities during the 2005 ozone season? (It's not too late to use Ozone Awareness Week ideas!)

**Jasper County continues to review each project for air quality considerations;**

**All solicited new industry is reviewed for environmental impacts including air quality and potential emissions.**

**The county continues to disburse information in pay checks with seasonal flyers; and the posters from**

**Ozone Awareness Week will remain in place as long as they are in good condition. (Additional posters may be needed)**

5. Do you have any requests for specific assistance from the Department and/or the EPA?

Some nicely done color booklets could be made available to citizens and distributed at various locations around the county if they could be supplied by DHEC or EPA.

Perhaps a collection of things that could be done around the home or business that could positively affect the quality of the air.

These may already be available, but we do not have a good source at this time.
